A ceramic sculpture workshop incursion is being held for Year 9 Elective Visual Arts students over two days — one for each class, Thursday Week 1 for 9.2 (Ms Albany), and Tuesday, Week 2 for 9.1 (Miss Rogers/Ms Brentin). All Year 9 Visual Arts students are required to participate in this artmaking incursion. The artworks produced will be planned in lesson times prior to the day. The artworks form part of the student's Body of Work assessment in artmaking for Semester 2. The workshop involves several stages of sculpture development. The students will be guided through the stages of construction, allowing them to make significant progress on their artwork. Completing the construction of these artworks is imperative as it allows for necessary drying time before bisque firing and completing the surface design during Term 4.

Miss Rogers and Ms Albany will be running the workshops with their classes with assistance from Mrs Jenny Coleman.

COVID safe practices will be followed.

Students will attend homeroom in the morning and have their usual breaks at recess and lunch.

There is no cost for this incursion.

Yours sincerely,

Ms Donna Albany  
Visual Arts Teacher
